[Microsoft Office Visio Project 2013 German Language Pack X86 X64](#)

The image shows a screenshot of the Microsoft Office 2013 installation process. The main window is titled "Microsoft Office 2013" and displays the heading "Seleccionar un producto de Microsoft Office". Below this heading, there is a list of three products with radio buttons: "Microsoft Office Professional Plus 2013" (selected), "Microsoft Project Professional 2013", and "Microsoft Visio Professional 2013".

An "HTML Help" window is overlaid on the main window. The title bar of the help window reads "HTML Help". The content of the help window is as follows:

### Elegir la versión de 32 bits o de 64 bits de Office

En la mayoría de casos debe instalar la versión de 32 bits de Microsoft Office. Recomendamos la versión de 32 bits de Office, porque evita problemas de compatibilidad con muchas otras aplicaciones, especialmente con complementos de terceros.

Office instala automáticamente la versión de 32 bits aunque el ordenador ejecute ediciones de 64 bits de Windows. Puede que necesite instalar la versión de 64 bits de Office si acostumbra a trabajar con bases de datos u hojas de cálculo extra grandes, o si desarrolla para la plataforma de 64 bits.

Si ya hay una versión de 64 bits de Office instalada en el equipo, que ejecuta un sistema operativo de 64 bits, la versión de 64 bits de Office se instala automáticamente.

### ¿Qué incluye la versión de 64 bits de Office?

La mayoría de elementos incluidos en la versión de 32 bits de Office se incluyen en la versión de 64 bits.

In the bottom left corner of the screenshot, there is a watermark logo that reads "Blog Conocimiento Adictivo".
